

Birth of HydroCAD and worldwide distribution

Following 9 months of planning, creativity and market driven orientation, Irriworks and VYRSA are pleased to announce the birth of HydroCAD™, an improved irrigation software able to design irrigation network of all sizes and shapes, allowing the best sizing of all materials and giving in-depth hydraulic insights, both graphic and numerical.

Exclusive worldwide distribution is granted to VYRSA, who will also provide trial licenses. Irriworks will provide support and training to all VYRSA dealers and customers
